ABOUT ME

I'm a Web Developer who loves to get involve in creative and challenging projects, I love to learn new things and be very agile. I also take the initiative to resolve my problems and take the situations to the next level.

Likewise, I think that I reflect a lot in my work the values and what I have learned as a Hiker, Dancer, and Bodybuilder.

WORK EXPERIENCE

Full Stack Developer
LeonidasEsteban.com | September 2020 - Present

In LeondiasEsteban.com I worked with a small team that allowed me to be in contact with all areas of the business, here I start working with Backend to be able to achieve ours goals before the deadlines.

Every day I learn something new and faced many challenges like programming products almost completely by my own.

To fulfill my responsibilities as a developer, I learned a lot of new technologies with courses and documentation, then applied my knowledge to my day-to-day work.

For example: I learned to work with Databases, Metabase, Google Analytics and Facebook Ads to help my colleagues in charge of sales and growth.

Worked with:

- **React.js**
- **Next.js**
- **Python**
- **Redux**
- **React Query**
- **Node**
- **Django**

- **Cypress**
- **PyTest**
- **PostgreSQL**
- **Three.js**
- **Facebook Ads**
- **Metabase**

- **All kind of stuff, always looking to help to improve and achieve our goals**

React Developer
KIUX | June 2020 - September 2020

As a React software developer, my responsibilities were migrating a law firm's internal web applications from jQuery and Vanilla JS to React.js and create new features like a small dashboard with the most important metrics of every worker

Worked with:

- **React.js**
- **JavaScript**
- **jQuery**
